

Call for Papers
Mobile Learning Workshop
International Conference on Computing, Networking and Communications
(ICNC 2012)
Maui, Hawaii, Jan. 30 – Feb. 2, 2012
<http://www.conf-icnc.org/>

Workshop Chair: Mehdi Zargham, Southern Illinois University Carbondale, USA
Email: mehdi@cs.siu.edu

Workshop Co-chair: Jie Cheng, University of Hawaii at Hilo
Email: chengjie@hawaii.edu

Scope and Topics

Mobile phones play an important role in learning and teaching because they provide an environment for active learning and social interactions **anytime** and **anywhere**. With today's mobile phones, we can do many of the tasks we can do with our PCs. Mobile phones allow students to utilize videos, visualizations, interactive instructional materials, online homework, games, discussion groups/boards, project demonstrations, and many free applications.

The Mobile Learning Workshop at ICNC 2012 explores every aspect of mobile learning, from apps development to assessment and evaluation. It covers today's practices for the use of tablet and smartphone technologies in education. We are seeing that social networking, video, and mobile apps are having a major impact on the way we teach, and we are welcoming contributions that help to advance the use of technologies to better support learning and educational purposes.

The workshop consists of four sessions; the first session provides a tutorial on mobile learning and state of the art support. The other three sessions provide presentations on mobile learning research. Each of these sessions includes 5 to 6 speakers, each representing a related topic on mobile learning. In particular, we aim to explore the following topics:

- **Developing games and apps for mobile devices**
- **Social constructivist approaches**
- **Technologies for mobile learning**
- **Development tools for mobile learning**
- **Case studies**
- **Assessment and evaluation of mobile learning**

Paper Submission

Please follow the author instructions at <http://www.conf-icnc.org/author.htm>

Direct paper submission link of this workshop can be found at <http://www.conf-icnc.org/cfp.htm>

In addition, please send a pdf file of your paper to mehdi@cs.siu.edu

Important Dates

Paper Submission: **July 31, 2011**
Authors Notification: **Sept. 20, 2011**
Camera-ready Paper: **Oct. 20, 2011**

Publications

All accepted papers will be published in the workshop proceedings book.
